

## SMARTER MDU FTTH Plug and Play Passive Solution Datasheet

### Main Distribution Box (MDB)

#### Characteristics

- Moulded enclosure with integrated sealing
- Modular configuration with splitters, splices and patches
- Modular configuration with SCM, MCM or Splitter Cassettes
- Standard with 8 splice cassettes (MCM 12F)
- Standard with 4 splitter cassettes – individually equipped with splitters 1:2 / 2:2 / 1:4 / .... / 2:32
- Allows „Mid-span express“ installation
- 1 front access adapter field (with 8 SC APC adapters)
- 10 Cable glands for  $\varnothing$ 3-12mm (round) distribution cables
- Locking system (triangular key)
- Door hinges on left and right side
- Installation on wall or pole - indoor or outdoor
- All fiber routes are safe acc. to the G652 specification
- Provisions for metallic armor earthing and strain relief
- Pre-assembled and factory tested
- Customized labeling on request
- Well protected packaging
- Optional 1 extra meter overlength path of distribution cables
- Optional 24 SC-APC adapter field on backside of Inlay

#### Technical data

##### Construction

Description	Values	Comment
Dimension (H x W x D)	510x320x150 mm	Rectangular type
Material	Aging resistant thermoplastic	(ABS/PC/PC+ABS – LSZH)
	Free from defects	grades approved from International certified laboratories
	Certified grades	
Color	RAL 7037	Grey
Locking mechanism	triangle lock	triangular screws
Cable gland	Polyamide + neoprene	
Flammability rating	UL94V0	
UV resistance	resistant	
RoHS requirements	fully met	
Halogen-free	Yes	

##### Mechanical and environmental data

Characteristics	Values	Tested acc. to	Comment
Mechanical rating	IK 09	EN 62262	
Protection rating	IP65	EN 60529	
Operating temperature range	-25° to +65°C	EN 300 019-1-4	@ relative humidity of 15% to 100%

Anatolia Cabling System offers to its clients Sterlite made MDU solutions .

Water condensation	No	DIN 47609
Durability	> 25 years	
RoHS and REACH	compliant	100% recyclable

### Technical drawing

### Bill of material

Picture	Description	Quantity	Picture	Description	Quantity
	MDB – housing	1		Triangular screw	8
	MDB – cover	1		Hinge axis	3
	MDB – Inlay	1		Splice cassettes (MCM 12F)	8
	MDB – earthing & strain relief plate	1		Splitter cassettes – individual equipped	2
	MDB – Cable sealing “midspan”, Ø6.2 and Ø 7.1 mm	2	X	Adapter SC APC (assembled to adapter plate)	8
	MDB – Pole mount bracket	2		Cable gland M20 (Sealing $\varnothing$ 2.5-4mm)	10
			X	Fixation screws ( $\varnothing$ 4mm x 40mm) and rawlplugs	3
				Splitter 2:8	x

### Optional components

Picture	Description	Picture	Description
	MDB – Cable sealing for “mid-span”: Ø9.5 and Ø10.5 (yellow) or Ø11.5 and Ø12.5 (green)	X	Splitter 1:2, 2:2, 1:4, 2:4, 1:8, 2:8, 1:16, 2:16, 1:32, 2:32
		X	M20 Gland sealing insert ( $\varnothing$ 6-12mm and $\varnothing$ 5-9mm)

## Basement/Building Distribution Box (BDB)

### Characteristics

- Moulded enclosure with metal fixation bracket
- Internal cable coil for up to 17m cable (∅ 6.5mm)
- SC APC pre-termination on top end of cable
- Completely pre-assembled / easy installation
- Incoming cable is factory sealed
- Up to 2 incoming cables are possible (cable storage depend of the diameter)
- Incl. an adapter plate with 12 SC APC ports
- Incl. 6 cable glands (drop cables) for full SC feed through and cable sealing ∅3mm (round)
- Splice holder (for up to 12 protectors)
- Locking system (e.g. screws with triangle key)
- Installation on wall or pole - indoor or outdoor
- Door hinges on left and right side
- All fiber routes are safe acc. to the G.657.A1 specification
- Provisions for metallic armor earthing
- Pre-assembled and factory tested
- Customized labeling on request
- Well protected packaging

### Technical data

#### Construction

Description	Values	Comment
Dimension (H x W x D)	210 x 205 x 115mm	Flat (rectangular) type
Weight	~1800g	Incl. 17m of 12F cable (32kg/km)
Material	Aging resistant thermoplastic Free from defects Certified grades	(ABS/PC/PC+ABS – LSZH) grades approved from International certified laboratories
Color	RAL 7037	Grey
Locking mechanism	Screws and triangle lock	
Cable gland	Polyamide + neoprene	
Protection features	Fire retarding material LSZH UV protection	

#### Mechanical and environmental data

Characteristics	Values	Tested acc. to	Comment
Mechanical rating	IK 09	EN 62262,	
Protection rating	IP67	EN 60529	
Operating temperature range	-25° to +65°C	EN 300 019-1-4	@ relative humidity of 15% to 100%
Water condensation	No	DIN 47609	
Durability	> 25 years		
RoHS and REACH	compliant		

Anatolia Cabling System offers to its clients Sterlite made MDU solutions .

## Technical drawing

## Bill of material

Picture	Description	Quantity	Picture	Description	Quantity
	BDB – housing	1		Triangular screw	4
	BDB – cover	1		12F SM Optical Fiber Cable ( $\leq \varnothing$ 6.5 mm) or 6F SM Optical Fiber Cable ( $\leq \varnothing$ 3.5 mm)	17 m - 30 m
	BDB – reel	1	X	Connector SC APC (assembled)	12
	BDB - fixation bracket	1	X	Adapter SC APC (assembled to adapter plate)	12
	BDB – Adapter plate	1		Double cable gland $\varnothing$ 3.5mm	12
	BDB - Inlay	1	X	Fixation screws ( $\varnothing$ 4mm x 40mm) and rawplugs	4
				Hinge Axis	2
				Earthing pin	1

## Optional components (Available on Request)

- Extra length of **15/30/45/60/90/120** till **300 mtrs** of **6F or 12F** Spiral Armoured cable coiled outside the enclosure in throwaway spool

## Fibre Access Terminal -8 (FAT-8)

### Characteristics

- Moulded enclosure with metal fixation bracket
- Internal cable coil for up to 30m cable (∅ 3mm)
- SC APC pre-termination on both cable ends
- Completely pre-assembled / easy installation
- Incoming cable is factory sealed
- Incl. 1 cassette splitter 1:8 (with 9 SC APC ports)
- Incl. 8 cable glands (drop cables) for full SC feed through and cable sealing 3x2mm (flat – optional round)
- 8x 1.4m over length management
- Splice holder (for up to 8 protectors)
- Locking system (e.g. screws with triangle key)
- Installation on wall or pole - indoor or outdoor
- Door hinges on left and right side
- All fiber routes are safe acc. to the G.657.A1 specification
- Provisions for metallic armor earthing
- Pre-assembled and factory tested
- Customized labeling on request
- Well protected packaging

### Technical data

#### Construction

Description	Values	Comment
Dimension (H x W x D)	260 x 210 x 75mm	Flat (rectangular) type
Weight	~1250g	Incl. 30m 1F cable (13kg/km)
Material	Aging resistant thermoplastic Free from defects Certified grades	(ABS/PC/PC+ABS – LSZH) grades approved from International certified laboratories
Color	RAL 7037	Grey
Locking mechanism	Screws and triangle lock	
Cable gland	Polyamide + neoprene	
Protection features	Fire retarding material LSZH UV protection	

#### Mechanical and environmental data

### Technical drawing

### Bill of material

Picture	Description	Quantity	Picture	Description	Quantity
	FAT8 – housing	1		Triangular screw	4
	FAT8 – cover and sealing	1		1F SM Optical Fiber Cable (Ø 3.0 mm)	30m
	FAT8 – reel incl. 30m cable	1		Cable glands	8
	FAT8 - fixation bracket	1		Glands sealing 3x2mm (flat cable)	8
	Cassette splitter (1:8)	1	X	Fixation screws (Ø 4mm x 40mm) and rawlplugs	3
	Fiber guiding inlay	1		Hinge Axis	2
				Earthing pin	1

### Optional components (Available on Request)

- Extra length of **15/30/45/60/90/120** till **300 mtrs** of Spiral Armoured cable coiled outside the enclosure in throwaway spool
- Optional: Different splitter ratios: 1:2 and 1:4 can also be made available only on specific request from customer
